

My name is Jaclyn Mendez, and I am a Financial Aid Advisor at NMSU. I've worked with the financial aid office for a total of four years, two of which were as an advisor. I was introduced to the financial aid office as a student for work-study while working on my bachelor's degree. I graduated in December 2021 and applied to become a full-time advisor after graduation. I am passionate about helping students and their families navigate financial aid. If elected, I am eager to expand my expertise to better serve students, parents, and the broader community.
